

This letter is in response to the effects that LPFM might have on KLOVE radio stations. I had prayed for sometime that a station like KLOVE would come to my area. Since this prayer was answered a few years ago, I have enjoyed many, many hours of good Christian music. Most stations that are on the air today are not suitable for children or Christians and KLOVE has given me a safe alternative, where I know my children will never hear vulgar music or talk. This is priceless to me!! I have heard from testimonies that KLOVE has given our community the chance to hear God's word. Many have been saved due to their broadcast. There again, this is priceless. It is the only station in my area that offers contemporary Christian music. Many Christians in the age range of 16-40 prefer this type of music. Should it be taken away, I'm afraid that other less desirable stations would take its place and therefore hurting the cause of Christ. This is a very important subject for Christians. There are many churches in this area and great numbers of Christians who rely on KLOVE to provide wholesome music for our families. So please, do not allow the LPFM stations to take priority over KLOVE by expanding this service.

Sincerely,
Marti Abee
